

## REPORTS OF A BATTLE ARE HEARD

Sheriff's Posse Meets Some  
of the Convicts.

SHOTS ARE EXCHANGED

Talk of Setting Fire to Mine  
where Fugitives Are Hidden.

Placerville, Cal., Aug. 1.—Reports of an encounter between the law officers and the thirteen convicts who escaped from Folsom prison are being received tonight, but owing to the remoteness of the scene of battle and the fact that night fell almost immediately following the receipt of the first news, details are coming in slowly. It is known, however, that the sheriff's posse, assisted by a force of the Placerville militia, came upon some of the fugitives near the Grand Victory mine, about dusk, and shots were at once exchanged. Dallas Bosquit, the son of Sheriff Bosquit, is said to be among the slain, and a message by telephone says his body was found along the road-side. Millhaman III was shot through the body and is not expected to recover. The greatest anxiety prevails here, concerning the safety of the soldiers. It is known that six of them went into the brush after the convicts, and the only trace of them was the wounded Dill, who was unable to give any clue concerning his companions. The convicts are believed to have taken refuge in the Grand Victory mine and there is talk of setting fire to it and drive out the desperate criminals. Additional forces are being hurried to the mine tonight, and if a second battle is not fought tonight the prisoners will be in a strong position tomorrow to give the convicts a fight.

Another account of the battle reached Ensign F. Smith, clerk of the Folsom prison. He was notified that three of the attacking party were killed, and that it was presumed two of the convicts were badly wounded. The three killed are presumed to be young Bosquit, Dill and one of the sheriff's posse, whose name had not been ascertained. The scene of the shooting was near Coal, a small place a few miles outside of Placerville.

## TO CONTROL PEACHES.

Plan is to Ship Abroad in Large Quantities.  
Guthrie, O. T., Aug. 1.—From all indications, J. A. Taylor, who has large orchards at Wynnewood, O. T., and who is known all over the territory as a fruit grower of prominence, will control the shipments of Elberta peaches from Oklahoma this year. Mr. Taylor has already made a number of contracts with Oklahoma growers and within the next two weeks shipments to eastern and western markets will be made.

## Married Women

Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. Our little book, telling all about this liniment, will be sent free.

## Munyon's Witch-Hazel Soap MAKES THE HAIR LUXURIANT AND BEAUTIFUL

Cars will be shipped from Shawnee, Okla., Guthrie, Oklahoma City, Chandler, Reno, and possibly one or two other points. The peaches will be crated and placed in the cars at a price to be paid by Mr. Taylor and he will take all risk on making a profit on the shipments. Mr. Taylor has been over the greater part of the Elberta district in Oklahoma during the last few weeks and has examined the orchards and other conditions. Owing to frosts and other conditions, the crop of peaches this year will not be as large as the crop of last year. However, the quality promises to be good and other fruit-growing sections will again be surprised at the peach crop in Oklahoma. Last year many cars of peaches were shipped out of the territory and it was shown at that time that the Elberta peach business will be no small thing in Oklahoma as the soil is particularly adapted in certain sections of Oklahoma to peach-growing. In many respects it is a profitable business.

## KING VISITS SQUADRON.

Charles Dons Admiral's Uniform and Goes Aboard Ship.

Lisbon, Aug. 1.—King Charles, in the uniform of an admiral, the prince royal, Louis Philippe, the young prince, Don Manuel, and Premier Biderio, at 2 o'clock today embarked at the naval dock yard on the river Tagus for their visit to the American squadron. They were accompanied by the dignitaries of the royal palace and the officials of the ministry of marine. Every honor was accorded to the royal party and state barges, as they moved out of the river, both the American and Portuguese men-of-war, which were gallantly dressed for the occasion, firing salutes. As the barges near the flagship Brooklyn the band on board played the national anthem of Portugal. The royal personages were received at the head of the ladder by Admiral Cotton, who was surrounded by his chief staff, the commanders of the other ships and United States Minister Bryan. Files of sailors manned the gangways. The king and his wife made a tour of the Brooklyn. The king made an inspection of the guns, armory, etc., of the ship, being very interested. The visit ended after luncheon aboard the Brooklyn. Admiral Cotton, in his remarks at luncheon, said he desired to thank his majesty for the honor of his visit, and that he desired to profit by the occasion to express his appreciation of the hospitality and extreme cordiality of the reception tendered to the squadron, not only by the king but by all the people of Lisbon as well. He proposed a toast to the king, queen and the royal family of Portugal. The king in replying, said he congratulated himself that he had the opportunity to visit the American squadron. The cordial manner in which he had been received put upon him a pleasant obligation, that of thinking President Roosevelt well for the pleasure he felt at having made the acquaintance of Admiral Cotton. He would therefore, he declared, send a telegram to President Roosevelt in which he would also thank him for the American good will shown by the visit of the squadron.

The king proposed a toast to President Roosevelt as the first magistrate of the United States in saying that to drink to President Roosevelt was to drink to the prosperity of that most powerful nation. The announcement by the king that he would send a telegram to President Roosevelt was greeted with cheers. The cruiser Chicago sailed for New York at 6:30 o'clock this evening.

## JETT'S CASE IS STILL ON TRIAL

Prosecution Is Calling Its  
Witness.

PEOPLE ARE SURPRISED

Witnesses Appear Who Were  
Not Expected.

Cynthiana, Ky., Aug. 1.—The second trial of Curtis Jett and Thomas White for the murder of J. B. Marcum has continued one week and the prosecution is still calling witnesses. Commonwealth's Attorney Byrd has surprised all in securing the attendance here of persons from Breathitt county that it was thought would never testify against either of the defendants. Among the witnesses who fled to the mountains during the trial at Jackson was Henry Freeman, and he was held in confinement here several days until he agreed to testify. He was on the stand again today for the third time, and told all about his saloon near Jackson; that he had killed a man himself and served three years in the penitentiary for it, and that Jett and White came to his place for whisky on the night after Marcum was shot and talked freely about "the dog that had been killed." Freeman testified that while they were drinking Jett said: "I had to get ahead of him some way, and I did it the best I could."

Freeman was disconnected in his evidence, but he testified that Jett and White had said to him that Marcum fell soon after he (White) had passed out of the court house.

Mrs. Combs' evidence, as given at Jackson on the first trial, was read to the jury. She was not in court, as her husband died here today.

Mr. Payne declared that every one against whom evidence has been found will be treated according to the evidence. A son of John Cupper, the mayor of Lockhaven, Pa., telephoned today that Cupper would come to this city to surrender in court Monday. Counsel for August W. Machen today filed in the criminal court demurrer to the former indictments of Machen. It alleges that every count in the indictments is fatally defective in that it fails to show that Machen was an officer of the government at the time of the offenses alleged were committed. Machen withdrew a plea of guilty.

## NEW MEAT LAW.

American Pork Must Be Accompanied With Certificate.

Berlin, Aug. 1.—The question arose in connection with the new meat law as to whether American pork must be accompanied by the certificate of microscopical inspection made by the specialists of the American government according to the terms of the agreement of September 2, 1901. Some German inspection officers have interpreted the new law as abolishing these certificates because in any case the meat must be inspected in Germany. Chancellor von Bülow, however, has just decided that these inspection certificates must accompany American pork, ruling that the new law does not affect the agreement of 1901.
